EDUCATION

Jaypee University of Information Technology (JUIT)

Bachelor of Technology in Computer Science and Engineering

Waknaghat, Solan, Himachal Pradesh

Expected Graduation: 2027

SKILLS

Languages: C++, JavaScript, Python, SQL

Frontend: HTML, CSS, JavaScript

Backend: Node.js, Express.js, EJS, REST APIs

Databases: MongoDB, MySQL

Developer Tools: Git, GitHub, VS Code, Postman, Wireshark

Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks

PROJECTS

ShopNest | *Node.js, Express.js, MongoDB, EJS, JavaScript*

- Developed a full-stack e-commerce application using Node.js, Express.js, MongoDB, and EJS following the MVC architecture for scalable backend development.
- Implemented secure authentication and authorization using JWT, bcrypt, cookies, and protected middleware to ensure secure user access.
- Built core e-commerce functionalities including product management, shopping cart, admin dashboard, image uploads with Multer, and MongoDB-backed CRUD operations with a responsive user interface.

Deep Packet Inspection Tool | *Python, Scapy, Wireshark, TCP/IP*

- Developed a Python-based packet inspection tool using Scapy to capture and analyze real-time TCP/IP network traffic.
- Implemented protocol-based filtering and leveraged Wireshark for packet analysis and network debugging.

Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a responsive portfolio website showcasing projects, technical skills, and coding profiles.
- Built responsive UI components and deployed the website using GitHub Pages for public access.

CODING PROFILES & ACHIEVEMENTS

- Solved 200+ Data Structures and Algorithms problems on LeetCode and other platforms, strengthening problem-solving skills across core computer science topics.
- Participated in hackathons and LeetCode coding contests, applying problem-solving skills in competitive programming environments.
- Built multiple software projects spanning full-stack web development, networking, and responsive frontend development.
- Applied object-oriented programming and REST API development principles while building scalable backend applications.

CERTIFICATIONS

- AWS Academy Graduate – AWS Academy Cloud Foundations
- Infosys Springboard – Introduction to Python
- Infosys Springboard – Functional Data Structures and Algorithms
- Introduction to Git and GitHub
